

Rack Accessories

RTE also carries a complete line of server rack accessories, including; shelves, keyboard trays, locks, wheels, cagenuts, power distribution units, power strips, fans, digital thermostat and wireless smoke alarm. These accessories use with main body for assistant function. Various parts improve the performance. Small light-load standard equipment installed on terminal board with 1U/2U specification.

PDU-Power Distribution Unit

A Power distribution unit (Commonly abbreviated to PDU) is a device that distributes electric power. RTE has a variety of PDU from simple to 19" rack-mountable to choose with 6/9 Pin options.

Cage Nuts

Cage Nuts combine the advantages of a spring-steel captive nut cage fastener with the superior strength of a multi-threaded nut. Cage Nuts snap easily into 3/8" square rack holes. A Cage Nut application does not require special tools or skills, eliminating the need for special operations. The nut floats within the spring-steel cage more than enough to offset normal hole misalignment.

Digital Thermostat With Fan Controller

The Temperature Sensor adjust cabinet temperature by intelligent control over fan unit. This is a highly valuable resource. Overheating is one of the worst things that can happen to a server. With the sensor you won't have to keep a watchful eye on the rack yourself, sensor will regulate temperature for you.

S/N	Specification	Parameter
1	Temperature Range	0°C~50°C
2	Input	PTC (10KΩ)
3	Output	2-way output
4	Consumption	3W
5	Power supply	220VAC
6	Accuracy	±1°C
7	Display	2 way 8 section digital pipe, red
8	Ambient temperature	-10°C~70°C
9	Maintain temperature	-20°C~80°C
10	Ambient humidity	≤85%RH
11	Installation	19"standard

Leveling Feet

Teflon padded foot, steel encased with hardened steel 5/16" threaded mounting shaft.

Wireless Smoke Detector Alarm

Wireless Smoke Detector Specification: Work Current: 12V Standard battery operation.

Features: Self-detecting, strong reliability, and easy installation. Relay normally opened/closed signal output and resumes automatically. It alarm independently. It also can match with security main panel as a detector to alarm. With low power indication and test button.

Cantilevered Shelf

Cantilevered design shelf available in 19" (17-1/4" useable) width. It occupies 3-1/2" (2 rack units) of vertical space and has 14-1/2" useable depth. Weight capacity is 50 pounds. 19" cantilevered shelves serve as an excellent means for mounting non-rack-mountable components such as tower or desktop CPU's, audio components, video recorders, etc. It conforms to all standard 19" EIA rack enclosures, cases, cabinets and frames from Star Case as well as other OEM vendors. Weight each is 5.5 pounds.

Sliding Shelf

A Star Case exclusive and unique design, this expanding (mounts in racks ranging from 18" to 26" rail-to-rail depth) sliding rack shelf or 1U rack drawer mounts into standard 19" EIA racks. The shelf firmly attaches to both front and rear rack rails and occupies only 1 rack unit of height space.

Door Locks

Different types of imported locks are also available Ex-stock. These locks available for front/back door and side panels. These locks can be keyed identically or with different keys allowing you to manage security levels.

Cable Organizers

19" horizontal rack mount and vertical mount wire managers provides an efficient method for organizing patch cords and cabling and at the same time maintaining required bend radius.
