

Wall Mount Cabinets

The TELMAN series of wall mount racks opens new horizons in performance and value. Designed to exceed the demanding requirements of the IT market, our series of products offers an excellent combination of quality, features and cost effectiveness.

Features such as enhanced thermal management, system expandability, multi system compatibility, structural integrity, security and compliance to internationally recognized standards are joined together in a rack series that provides exceptional value for your investment. Equipment from wide range of manufacturers easily installs into the rack. Fully adjustable vertical and horizontal mounting rails, ensures maximum compatibility. Our wall mount racks are perfect for rackmount switches, routers and other networking devices.

Features:

All Server Racks feature cold rolled steel frame, with a 1000-1500 lb weight capacity. Each unit comes with one fixed tray, fan at top and other accessories are available as an option.

Cabinet Accessories

Our wall mount cabinets have multiple options for shelves, both fixed, adjustable fixed, and sliding. Select from cantilever or four-post mounting. A variety of cable management, power strips, joining kits, anti-tip retractable stabilizer bars, keyboard trays, utility drawers, reducer rails, blanking/filler panels, adjustable angle brackets and screws are available.

Technical Specifications:
